

Need Your Love So Bad

Peter Green

Intro Solo

The diagram shows a 1D lattice with 12 sites, divided into four segments of three sites each. The lattice is labeled with time steps T, A, B, and an unlabeled row. Arrows labeled 'full' point to sites 10 and 12 at time T, and sites 13 and 12 at time A. The diagram illustrates the movement of particles (represented by dots) and the filling of sites over time.
